

SILVER FIRS ROOFING INFORMATION

Silver Firs I HOA requires the use of a 30 year warranty composition shingle or better with matching ridges and trim. The ACC requests that your selection be of a comparable quality to the CertainTeed Landmark Series.

You will need to submit an ACC Application for your re-roofing, as with all exterior modifications. Your application must indicate the manufacturer, specific product name and color selection for review by the committee for final determination. Color selection should reflect the aesthetic harmony of the surrounding community.

Applications and supporting materials may be sent via email to Tom Gish, tgish@portgardnermgmt.com, or by fax (425-303-0257) or mail to:
